CARBON INJECTION TECHNOLOGY

We started to use carbon Long fibers with nylon Injection to Create carbon high texture lightweight products. Long fibers in the pellet form Advantage.

FATIGUE TESTING MACHINE

To ensure the safety of riders, we thoroughly test every product according to the "CEN" standards. It's our goal to let our riders not only experience lightweight but also safety.

INSPECTION MACHINE

Our lightweight carbon-fiber made products are of the finest quality. To assure this quality, we test our carbon-fiber products from top to bottom with the inspection machine.

MICROCOMPUTER ATTENUATION TESTER

We our pioneers in product quality and know that carbon-fiber is an ambiguous material.

Therefore we also check our carbon-fiber made products' strength by our Microcomputer Attenuation Test. The test puts them under 150kg of pure force, two times, for 30 seconds. The result, a safe and reliable product that every rider can trust.our carbon-fiber products from top to bottom with the inspection machine.

HARDNESS TESTING MACHINE

To assure the intensity and safe structure of our products to meet the international standards, we carry out discreet sample inspection to pass the hardness test. It is important to us that we deliver consistency in our product quality.

COORDINATE MEASURING MACHINE

The coordinate measuring machine is key to reach our goal of high product standards. We only want to provide our customers the best and most excellent quality. Therefore we use 2.5D CMM techniques to test all our products.

EFBE, TESTING CENTER IN GERMANY

After EN testing at Cycling & Health Industry R&D Center (in Taiwan) we send our products for further inspections to EFBE in Germany, so that we can assure our high expectations and meet the international standard.

S/SAFE

23-01

Comes with one long bottle cage screw and two seatpost adapters.

MATERIAL: AL6061-T6

The easy-to-use S/SAFE pin secures your seatpost from stolen. Install the S/SAFE pin inside the seatpost. Then, screw tight the provided bottle cage screw. The long screw thus jams the passage of the S/SAFE pin, preventing the seatpost from pulled up.

CL-KE06E-CV

ADP-FA-P16 90-01

For flat mount fork adapter to post mount caliper.

MATERIAL: AL 6061-T6
SPEC: For 160m/m rotor
WEIGHT: 42g/pcs

ADP-FAPOST 90-02

Flat mount to post mount adapter.

MATERIAL: AL6061-T6
WEIGHT: 33g/pcs

ADP-FA1416 90-03

For mounting SHIMANO® flat mount calipers on flat mount fork.

MATERIAL: AL6061-T6
Fits 140mm / 160mm rotor

ADP-FA-R16 90-04

For mounting SHIMANO® flat mount calipers on flat mount frame.

MATERIAL: AL6061-T6
Fits 160mm rotor

ADP-RFA-P14 90-05

For flat mount frame adapter to post mount caliper.

MATERIAL: AL 6061-T6
SPEC: For 140m/m rotor
WEIGHT: 16g/pcs

ADP-RFA-P16 90-06

For flat mount frame adapter to post mount caliper.

MATERIAL: AL 6061-T6
SPEC: For 160m/m rotor
WEIGHT: 23g/pcs

ADP-RFA-P18 90-07

For flat mount frame adapter to post mount caliper.

MATERIAL: AL 6061-T6
SPEC: For 180m/m rotor
WEIGHT: 26g/pcs

ADP-PM1622 90-08

Post mount disc brake adapter. Adapter for 160mm to 220mm disc rotor.

MATERIAL: AL6061-T6
POST MOUNT: 74mm

ADP-PM1820 90-09

Post mount disc brake adapter. Adapter for 180mm to 203mm disc rotor.

MATERIAL: AL6061-T6
POST MOUNT: 74mm
WEIGHT: 14g/pcs

ADP-PM20-220 90-10

Post mount disc brake adapter. Adapter for 203mm to 220mm disc rotor.

MATERIAL: AL6061-T6
POST MOUNT: 74mm

ADP-STD1618 90-11

Post mount disc brake adapter. Adapter for 160mm to 180mm disc.

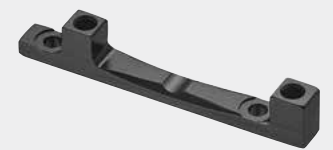

MATERIAL: AL6061-T6
WEIGHT: 18.5g/pcs

ADP-PM1618 90-12

Post mount disc brake adapter. Adapter for 140mm to 160mm / 160mm to 180mm disc.

MATERIAL: AL6061-T6
POST MOUNT: 74mm
WEIGHT: 10.5g/pcs

ADP-PM1620 90-13

Post mount to post mount for 203mm rotor only. Adapter for 160mm rotor to 203mm disc.

MATERIAL: AL6061-T6
POST MOUNT: 74mm
WEIGHT: 23g/pcs

PU-TLR 91-01

For tubeless ready rims tape.

MATERIAL: PET
SPEC: 19mm x 50M
 22mm x 50M
 33mm x 50M

NZ-TUSH-F 91-02

The multi-vent valve allows users to pump up tyres quickly and also works with most the foam-inserted tubeless tyres.

MATERIAL: AL6061-T6 with NBR taper cone spacer
SPEC: Presta valve
LENGTH: 47, 52, 62, 72, 87, 107mm

NZ-TUS-F 91-03

Tubeless valve.

MATERIAL: AL6061 with NBR tapped spacer
SPEC: Presta valve
LENGTH: 40, 45, 60, 70mm
 With NZ-CN5

NZ-GH 91-04

Tubeless valve (removable type) extender, can easily fixed by outer threaded nut.

MATERIAL: AL6061
SPEC: Tubeless Valve
LENGTH: 40, 60mm
OPTION: NZ-HF-TL

NZ-TL-TUS 91-05

Valve tool.

MATERIAL: Nylon, Alloy
COLOR: Black

NZ-CN5 91-06

Tubeless Valve cap.

MATERIAL: Nylon
SPEC: Presta Valve

NZ-AMTUS-F 91-07

Tubeless Valve for USA valve.

MATERIAL: AL6061 with NBR tappor spacer
SPEC: USA Valve
LENGTH: 40mm

NZ-NUT5 91-08

Special nut for tubeless presta valve, compatible with NZ-TL-TUS.

MATERIAL: AL6061
COLOR: BK
WITH: O-ring

Tubeless SET 91-09

Tubeless ready kit contains everything you need to complete your tubeless set-up.

SPEC: RIM TAPE (PU-TLR) x 1 roll
 WIDTH OPTION: 19mm x 50M / 22mm x 50M / 33mm x 50M
 TUBELESS VALVE (NZ-TUS-F) x 2 pcs
 LENGTH OPTION: 40mm / 45mm / 60mm / 70mm
 VALVE TOOL (NZ-TL-TUS) x 1 pcs
 VALVE CAP (NZ-CN5) x 2 pcs

108-01

The cleat body is constructed from high-strength fiber-reinforced nylon and paired with ground-contact anti-slip rubber pads to ensure stable pedaling and dependable traction. It is available in 2° and 6° float options to suit different riding styles.

MATERIAL:

Body: High-strength composite plastic / Rubber
Accessories : Carbon Steel

Float: 2° / 6°

Dimensions: 74 x 81 mm (Lx W)

NEW

PDP-AR1

108-02

The patented guide ramp allows you to quickly locate the pedal platform, while the extended, specially contoured design enables fast, easy installation and removal, improving overall pedaling efficiency.

MATERIAL:

Body: Nylon Composite
Y-Locking Plate: Stainless Steel
Counterweight Plate: AL

Dimensions: 139 x 81 mm (Lx W)

NEW

PDP-AR2

108-03

The integrated platform adapter and cleat design requires no additional cleat purchase and installs directly for immediate use; combined with a patented guide ramp, pedaling becomes more stable and efficient.

MODEL: PDP-A1

MATERIALS: High-strength composite plastic

Dimensions: 135 x 84 mm (Lx W)

NEW

PDP-2SL-6

108-04

Patented SPD platform adapter with high strength anti slip resistant cleats, keep the pedal in best optimal angle, bring greater stability and friendly riding experience during training and daily commute, the pedal that meets all your riding needs.

PLATFORM ADAPTER

MATERIAL:

Body: Nylon Composite
Y-Locking Plate: Stainless Steel
Counterweight Plate: AL

CLEAT MATERIAL:

Body: Nylon+fiber / Rubber
